Education

2019

Bachelor of Science in Information Technology

Polytechnic University of the Philippines

Expertise

- Node.js (Express.js, NestJS, AdonisJS)
- MySQL
- Microservices
- RESTful API
- ReactJS (Next.js)
- JavaScript (TypeScript)
- Laravel (PHP)
- AWS (CodePipeline, Cloudwatch, S3, DynamoDB, RDS, etc.)
- Headless CMS / Client-Server
- EDA (Event-Driven), SOA (Service-Oriented), Event Sourcing
- Vue.js (Nuxt.js)

Language

English

Filipino

Experience

2023 - 2024
Halcyon Agile l Mandaluyong City
Mid Software Developer (Node.js)

Devoted to the continuous optimization of microservices performance, I implemented monitoring and logging solutions for some of its modules. Concurrently, I collaborated effectively with cross-functional teams, enhancing my ability to integrate and maintain third-party services. Notably, I played a pivotal role in seamlessly incorporating third-party eGift Card transactions into the system for potential buyers within the marketplace application. Additionally, when the other team (Laravel) requires additional developers, I contribute my skills to Laravel projects, showcasing my versatility and commitment to team success.

2021 - 2023
Halcyon Agile l Pasig City
Jr. Software Developer (Node.js)

As I progressed in my career, I transitioned to the Node.js team of the same company, where I had the opportunity to work on diverse and challenging project with microservices as the underlying software architecture. I utilized AdonisJS (Node.js Framework) and MySQL in the backend, and I built the CMS using React.js. Joining as a Software Developer, I quickly became an integral part of cross-functional teams, collaborating with professionals from different disciplines to deliver high-quality software solutions.

2019 - 2021
Halcyon Agile l Pasig City
Jr. Software Developer (Laravel)

My career began with a solid foundation in computer science, earning a Bachelor's degree in Information Technology from the Polytechnic University of the Philippines. In my early years, I honed my skills as a Junior Software Developer at Halcyon. During this time, I gained practical experience in Laravel (PHP Framework), MySQL, RESTful API, and Vue.js. I actively contributed to the development and maintenance of software applications and portfolios, allowing me to grasp the fundamentals of software development methodologies and best practices.
